

## Monophonic Triplets

presented by Joo Won Park

Monophonic Triplets is my reimagination of Poeme Electronique, which introduced the site-specific electronic music to a great population in the early days of electronic music. It is also my attempt to convert a ubiquitous space and tool into an expressive instrument.

**Joo Won Park** ([joowonpark.net](http://joowonpark.net)) wants to make everyday sound beautiful and strange so that everyday becomes beautiful and strange. He has studied at Berklee College of Music and the University of Florida, and currently teaches Music Technology at the Wayne State University. Joo Won's music and writings are available on ICMC DVD, Spectrum Press, MIT Press, PARMA, Visceral Media, MCSD, SEAMUS, and No Remixes labels.
